

Pica-Gel® Signalmarker

HIGH-PERMANENT

Pica-Gel Signalmarker

The perfect substitute for tube markers

Quick • Effortless • Economic

- Very easy and effortless handling: No sweaty tube pressing
- Time-saving: Marking works considerably faster than using a tube marker
- Most economic: 1 Pica-Gel substitutes up to 4 tube markers of 50 ml each

The innovative "Gel-Lead" makes the difference

- Marks both on glossy and rough materials, no matter if bright or dark, rusty or oily, hot or freezing cold
- Most-permanent, after few minutes of drying phase
- High contrast and opaque markings – even on dark surface
- Weather and light resistant markings – ideal for outdoor use
- Mutable line width from 2 - 8 mm possible
- Useful quiver-cap for one handed handling, with integrated sharpener
- High quality and smoothly running twist-mechanism
- Chloride-free for marking on stainless steel
- Temperature resistant markings up to approx. 1000 °C
